© 2014 Lyrics by Kata Kozma

Boy, take it slower my boy,
Just wait a little more
And anything you want is yours.
Lets pretend we-e don't give a...
it's such a tease
Nada drama just Nirvana
(ooooh)

We don't need to fall for one another babe
So lets keep playing; wrap your arms around my body
And hold me, just hold me.
Send me pretty pictures of your heart, of you heart
No filter just the way you are
(Just) The way you are.

Soon i'll be yours
Soon i'll be yours
Soon i'll be yours
Soon i'll be yours

We won't talk we'll just f...ck.
So alive, diamond love.
You'll go wild i'll go soft
We'll be moving with the moment
We won't talk we'll just f...ck.
So alive, diamond love.
You'll go wild i'll go soft
We'll be moving with the moment

Boy, take it slower my boy,
Just wait a little more
And anything you want is yours.

We won't talk we'll just f...ck.
So alive, diamond love.
You'll go wild i'll go soft
We'll be moving with the moment
We won't talk we'll just f...ck.
So alive, diamond love.
You'll go wild i'll go soft
We'll be moving with the moment

We don't need romance
Lets just dance.
We don't need romance
Lets just f.ing dance.
