Verse

I've got a vision it looks like pure heaven
Love is the religion the people are living in peace.
(Living in peace people are living in peace)
A million voices rejoicing together
All minds are wide open we're flesh and we're human
We're free. (we're living free we-e-e we're free)

Pre Hook

And we carry each other through the wind and the water.
Cuz you're me and i'm you.
Hear a thousand hearts beating as one as we're breathing together
Feel the Earth moving with you!

Hook

So lets hold hands tonight let love hold the light
To the human to the human race.

Verse

Kaleidoscope nation we stand in formation
We're drifting and changing, infinite rotations go 'round.
(The world is circling round the world is circling around)
We start revolutions, we build institutions
We find resolutions, want a better future now!
(Cuz all we have is now yeah all we have is right now)

Pre Hook

And we carry each other through the wind and the water.
Cuz you're me and i'm you.
Hear a thousand hearts beating as one as we're breathing together
Feel the Earth moving with you!

Hook

So lets hold hands tonight let love hold the light
To the human to the human race.

(Optional Bridge)

Like a pearl of an oyster we're one of a kind
