Take me out this place  
Put me somewhere else  
Give me all the love and the abundance and the wealth.  
Shoppin' at the mall don't look at the tags  
Show me all the finer things that i ain't never had.

Give me real friends a mansion and a man  
Call and tell my momma she ain't gotta work again  
Asap asap a,  
Asap asap a.

Put me on an island right up in a villa  
Put me on a yacht in the sea with sunny weather  
Give me a chef that can cook up all my meals  
Throw in a maid to make sure the house clean.

I don't care to be the richest (girl) in town  
I just want enough to let my hair down.  
I let my hair down. I let my hair down.  
Villa. Okay.

Nice life alright  
We will live good.  
Nice life alright, alright. Alright.  
Nice life alright  
We will live good.  
Nice life alright. Alright

I just wanna live  
I just wanna live  
I just wanna live  
I just wanna live

What makes the other people different than I  
If they can have it so can I  
It must be attainable if it exists  
I'm not about to live paycheck to paycheck  
Money isn't everything yes indeed  
But if it didn't matter everything would be free  
(laugh)  
But it ain't
