Verse

I don't believe in my fears no more
They're just invisible barriers
Tune out the voices inside my head
And vibrate higher higher higher

Chorus

Please don't come around
If you can't take me to higher ground
Please don't come around
If you can't take me to higher ground

Mantra

Keep on climbing up climbing up climbing up
Rising up rising up rising up

Verse

I'm broadening my horizons
Stretching my mind like a rubberband
I'm working towards my evolution
Got to vibrate higher higher higher higher

Chorus

Please don't come around
If you can't take me to a higher ground
Please don't come around
If you can't take me to a higher ground

Mantra

Keep on climbing up climbing up climbing up
Rising up rising up rising up

Bridge

Sometimes i feel like i'm by myself
Wonder if other's relate to this
People who see through the illusion
So hard to find but they do exist, yeah.

Chorus

Please don't come around
(don't come around, don't come around)
If you can't take me to a higher ground
(don't come around, don't come around)
Please don't come around
If you can't take me to a higher ground
Please don't come around (don't come around, don't come around)
If you can't take me to a higher ground
Please don't come around
If you can't take me to a higher ground

Don't come around, don't come around.
Don't come around, don't come around.
Don't come around, don't come around.
Don't come around, don't come around.
