Verse

Look at me, I'm in this empty state again.
Am I always gonna be lonely in the end?
I can feel my life looping around-round-round-should
I runaway or change here?
I really wish I could reset my mind-mind-mind-I'm
Searching for a new key.

Pre Chorus

Fighting with the enemy
That is no-one else but me
I just wanna break free

Chorus

I'm alone but I am all I need
I'm alone but I am all I need
I'm alone but I am all I need
I'm alone but I am all I need

Verse

Hey girl who's been hiding inside of me
Let's spend some time together in harmony.
Cause we're gonna be in here for a while
How could we make us better?
I just wanna figure out who you are
Cause all we have is each other.

Pre Chorus

Perfect little symmetry
Beautiful duality

Dancing in my body
In my body

Chorus

I'm alone but I am all I need
I'm alone but I am all I need
I'm alone but I am all I need
I'm alone but I am all I need
